INTRODUCTION ....................................................................... XXI

## 1 UNDERSTANDING PSYCHOLOGICAL TRAUMA

1 LEARNING OBJECTIVES ............................................................ XXX
2 TRAUMA IN SOCIETY ................................................................ 2
3 TRAUMA NURSING ................................................................... 3
4 TRAUMA: THE BASICS .............................................................. 5
5 POSTTRAUMATIC STRESS DISORDER AND POSTTRAUMATIC STRESS SYMPTOMS ................................................................................ 6
6 THE NEUROBIOLOGY OF TRAUMA: KEY CHANGES IN PHYSIOLOGY AND BEHAVIORS ................................................................. 8
7 TOXIC STRESS .......................................................................... 9
8 TRAUMA AND THE EFFECTS ON THE BODY .............................. 12
9 TRAUMA AND LEARNING ........................................................... 13
10 TRAUMA AND PTSD: VULNERABLE GROUPS ......................... 18
11 TYPES OF TRAUMA .................................................................. 19
12 CONCLUSIONS ....................................................................... 25
13 HIGHLIGHTS OF CHAPTER CONTENT ....................................... 26
14 REFERENCES ........................................................................... 27

## 2 TRAUMA AND BECOMING A NURSE

2 LEARNING OBJECTIVES ............................................................ 30
3 TRAUMA UNIQUE TO NURSES AND CAREGIVERS ................. 32
4 TRAUMA EXPERIENCED BY NURSES AS CAREGIVERS .......... 32
5 NURSES AS AN OPPRESSED GROUP ......................................... 38
6 TREATMENT TRAUMA ............................................................ 39
7 TRAUMA WITHIN THE ORGANIZATION AND THE PROFESSIONAL ROLE OF BEING A NURSE ......................................................... 43

# TABLE OF CONTENTS

## 5 TRAUMA-INFORMED PRACTICES IN EDUCATIONAL AND HEALTHCARE ORGANIZATIONS .......................... 113

- LEARNING OBJECTIVES .................................................................................................................. 112
- EDUCATIONAL COMPETENCIES IN TRAUMA-INFORMED CARE .............................................. 114
- PRINCIPLES OF TRAUMA-INFORMED CARE FOR NURSES IN ORGANIZATIONS .............................. 118
- PSYCHOLOGICAL SAFETY WITHIN ORGANIZATIONS .................................................................. 124
- CONCLUSIONS ................................................................................................................................. 131
- HIGHLIGHTS OF CHAPTER CONTENT ......................................................................................... 132
- REFERENCES ..................................................................................................................................... 133

## 6 APPLYING TRAUMA-INFORMED CARE AS A NEW NURSE ....................................................... 137

- LEARNING OBJECTIVES .................................................................................................................. 136
- TRAUMA-INFORMED CARE IN NURSING: EVIDENCE FOR CHANGE .............................................. 138
- WAYS OF KNOWING THROUGH A TRAUMA-INFORMED LENS .................................................. 144
- THEORY TO THE RESCUE .................................................................................................................. 155
- PROGRAMS FOR SUPPORTING MENTAL HEALTH POST TRAUMA .................................................. 161
- CONCLUSIONS .................................................................................................................................. 167
- HIGHLIGHTS OF CHAPTER CONTENT ......................................................................................... 168
- REFERENCES ..................................................................................................................................... 168

## 7 TRAUMA AND GEOPOLITICAL SPACES .... 173

- LEARNING OBJECTIVES .................................................................................................................. 172
- ETHICS AND TRAUMA-INFORMED NURSING CARE ........................................................................ 174
- TRAUMA AND SEXUAL VIOLENCE: NOTALONE .............................................................................. 177
- EDUCATION, HEALTH, TRAUMA, AND LEGAL GUIDANCE ............................................................ 179
- TRAUMA-INFORMED SCHOOLS: K–12 ............................................................................................ 182
