About the Authors viii
Foreword by Bernadette Mazurek Melnyk xvii
Introduction xix

1 EXTENDING THE USE OF EVIDENCE-BASED PRACTICE TO HEALTH POLICYMAKING 1

The Use of Evidence in Policymaking 2
The Evolution of Evidence-Based Practice 2
Adapting EBP for Use in Health Policy 8
Why Now Is the Time: Reaching Critical Mass 10
The Use of Research and Evidence in Policymaking in Other Countries 11
The Imperative for Using Evidence in Health Policymaking 13
Evidence-Based Versus Evidence-Informed 14
Definitions of Evidence-Informed Policymaking 15
Summary 17
References 18

2 USING EVIDENCE: THE CHANGING LANDSCAPE IN HEALTH POLICYMAKING 21

The Emerging and Controversial Uses of Science, Research, and Evidence in Policymaking 22
Sources of Guidance for Evaluating Evidence to Inform Policymaking 29
Examples of the Use and Influence of Evidence on Policymaking and Practice 32
The Changing Perspectives on the Use of Evidence and Big Data 36

Strategies for Using Evidence in Policymaking for Nurses and Other Healthcare Professionals 38
Summary 39
References 40

3 HEALTH POLICY AND POLITICS 43
Key Terms Related to Health Policy 44
Health Policy as an Entity and as a Process 48
Differentiating the Big P and Little P in Health Policy 50
Politics in Health Policymaking 52
Nurses and Health Policy 55
Chaos Theory, the Butterfly Effect, and the Charge to Advance Health Policy Change 58
Summary 58
References 59

4 GOVERNMENT STRUCTURES AND FUNCTIONS THAT DRIVE PROCESS 63
The Three Branches of Government 64
The Legislative Branch: The Senate and the House of Representatives 65
The Executive Branch: The Offices of the President and Vice President and the Cabinet 72
The Judicial Branch: The Supreme Court and Federal Courts 79
The Structure and Function of State and Local Governments 81
The Structure and Function of Executive Branch Agencies and Regulatory Boards 83
Summary 85
References 85

5 POLICYMAKING PROCESSES AND MODELS 89
How a Bill Becomes a Law 90
How Regulations Are Made 98
Policy Process Frameworks and Models 103
Partisan Politics, the Importance of Cost, Stakeholder Influence, and Expert Opinion 112
Summary 115
References 115

6 AN OVERVIEW OF AN EVIDENCE-INFORMED HEALTH POLICY MODEL FOR NURSING 119
Where Does Evidence Fit in Health Policymaking? 120
Comparing an Evidence-Informed Health Policy (EIHP) Model and EBP Models 121
Components of EIHP and EBP Models: A Comparison 123
The Eight Steps of an EIHP Model 126
Summary 136
References 136

7 THE FOUNDATION: STEPS 0 THROUGH 3 139
Introduction to Steps 0 Through 3 140
Step 0: Cultivate a Spirit of Inquiry in the Policymaking Culture or Environment 140
Step 1: Ask the Policy Question in the PICOT Format 144
Step 2: Search For and Collect the Most Relevant Best Evidence 155
Step 3: Critically Appraise the Evidence 161

Summary 167
References. 168

8 POLICY PRODUCTION: STEPS 4 AND 5. 171
Introduction to Steps 4 and 5 172
Step 4: Integrate the Best Evidence With Issue Expertise and Stakeholder Values and Ethics 173
Step 5: Contribute to the Health Policy Development and Implementation Process 185
Summary 192
References. 192

9 FOLLOW-THROUGH: STEPS 6 AND 7 195
Introduction to Steps 6 and 7 196
Step 6: Frame the Policy Change for Dissemination to the Affected Parties. 196
Step 7: Evaluate the Effectiveness of the Policy Change and Disseminate Findings. 204
Summary 216
References. 217

10 EVIDENCE-INFORMED HEALTH POLICYMAKING: CHALLENGES AND STRATEGIES 221
Challenges With and Strategies for Advancing the Use of Evidence by Policymakers. 222
Sweeping Reform or Incrementalism: Developing Realistic Expectations. 223
Disagreement From Within: Establishing Ground Rules 230
Engaging With External Stakeholders. 233
Functioning in Complex Political Systems 235

Palestine, 260–261
Scotland, 261–262
Sweden, 262–263
Uganda, 258–259
UK (United Kingdom), 263–264, 267
US (United States), 267–269
importance of, 15
role in policymaking, 120–121
Step 0–cultivating spirit of inquiry, 127, 140
formulating background/foreground questions, 143
raising inquiries, 141–143
Step 1–asking questions in PICOT format, 127–130, 144–155
clinical questions, 147–148, 150–152
constructing questions, 146–147
focused questions, 145
health policy questions, 150–152
retrospective analysis, 130, 153–155
samples, 148–155
uses of questions, 145
Step 2–searching for/collecting evidence, 130–132
global evidence/systematic reviews, 155–158
local evidence, 156, 159–161
Step 3–appraising evidence critically, 132
framing and communicating synthesis of evidence, 166–167
qualitative evidence, 162–163
quantitative evidence, 161–162
systematic reviews and/or meta-analyses, 163–165
Step 4–integrating evidence with issue expertise and stakeholder concerns, 132–133
issue expertise categories, 173–175
knowledge translation guidelines, 183–184
research organizations, 181–182
stakeholder analysis, 178–181, 184
stakeholder ethics, 177–178
stakeholder values, 175–176
Step 5–contributing to policy development and implementation, 133–134
building relationships with policymakers, 190–191
development stages, 185–186
implementation stage, 191–192
preparing/giving testimony, 186–189
Step 6–framing policy changes for dissemination, 134, 196–197
examples, 201–204
improving dissemination, 198–199
knowing stakeholders, 197–198
responsibility for dissemination, 200–201
