OBJECTIVES
1. Introduction of Exploring Ireland’s Healthcare Services
   - International Collaboration between United States and Ireland
   - Syllabus
2. Learning Opportunities
   - Site visits
   - Guest lectures
3. Incorporation of service learning
4. Implications for Faculty Leading a Study Abroad Course
   - Planning considerations
   - Lessons learned
   - Learning Opportunities

PROGRAM SITE(S)

The program will take place in Ireland, specifically the cities of Dublin and Galway. Ireland is the westernmost and second largest of the British Isles and is separated from Great Britain by Saint George’s Channel on the southeast, the Irish Sea on the east, and the North Channel on the northeast. Politically, the island is divided into Northern Ireland, a constituent part of the United Kingdom (U.K.), and the Republic of Ireland. The island is divided into four historical provinces—Connaught, Leinster, Munster, and Ulster—and administrative units called counties.

While in Dublin students will be staying at Trinity College and while in Galway students will be staying at the National University of Ireland, Galway. Many guest speakers and site visits will occur at these two historical academic institutions.

HIGHLIGHTS

There are several exciting highlights being offered to the students during this study abroad program which may include:

- Tours and guest lectures by expert faculty from Trinity College, and the National University of Ireland, Galway.
- Tour of the National University of Ireland, Galway’s state of the art Simulation lab.
- Tours and guest speakers from St. Patrick’s Hospital, The University Hospital, Phoenix Care Hospital and the National Rehabilitation Hospital of Ireland with Service Learning Opportunity.
- Day tours of Dublin, Galway, Aran Islands, Cliffs of Moher and/or Kylemore Abbey.
- Attending a theatrical production such as a current play and Riverdance.
