Title:
WORKSHOP 3: Never too Late to Refresh! Qualitative and Quantitative Research for Academic Nurse Educators

Keywords:
evidence, research and teaching practice

Description/Overview:
This research refresher is designed for participants who are planning to conduct research in nursing education. This session includes a wide range of topics: problem identification, design, measurement, data collection/analysis, and research challenges. Small group interaction provides opportunities to share ideas. Become energized to generate evidence for teaching practice.
