President-elect Receives Honorary Degree

Lucie Young Kelly, Ph.D., F.A.A.N. (Alpha Zeta), Professor of Nursing and Public Health at Columbia University, NY, was one of four educators to receive honorary Doctorate of Humane Letters Degrees from Georgetown University this May at the Graduate Honors Convocation.

A widely acclaimed author, she has written "Dimensions of Professional Nursing," and is Editor of *Nursing Outlook*. Dr. Kelly has promoted nursing education at local, national, and international levels, and has given counsel to health officials in Egypt, Germany, Iran, Kenya, Soviet Union, and Thailand as well as in the United States.

October 12-14 Sigma Theta Tau Celebrates 27th Biennial Convention

"Image Makers: Richness and Diversity," the theme for the 27th Biennial Convention, will explore what image today's nurses want to project, and the best ways to present that image. Eleven nursing leaders will focus on the multi-faceted image of the nurse as a researcher, educator, practitioner, administrator, and scholar.

Wednesday will begin with an opening luncheon featuring the Lexington Chamber of Commerce Minutemen, a fire and drum corps presentation, followed that evening with the Founders' Awards Banquet. Dynamic presentations by nursing leaders will take place on Program Day, Thursday, with Friday's recognition luncheon and installation of the 1983-85 officers closing the Convention.

Angela Barron McBride, Ph.D., F.A.A.N., Professor and Chair of the Graduate Department of Psychiatric/Mental Health Nursing, Indiana University School of Nursing, will keynote the Program Day with "From Being Concerned About Our Image to Becoming Image Makers."

An original Sigma Theta Tau film collage of nurses performing today's multiple and diverse roles will be presented. A panel of nursing leaders and image makers will discuss and react to the film at its completion.

Concurrent program sessions will be divided into four Image Maker areas: Policy and Planning, Knowledge Builders, Toward a New Horizon, and Health Care Delivery.

27th Biennial Convention

(Continued from page 1)

The Policy and Planning session will illustrate the nurse's image as a policy maker in the issue of reimbursement for health services. Sr. Rosemary Donley, Ph.D., F.A.A.N., will moderate and Lucie Young Kelly, Ph.D., F.A.A.N., Nora M. Corcoran, M.S., R.N., and Lucille Joel, Ed.D., F.A.A.N., will participate in a panel discussion.

Sr. Rosemary Donley is Dean, School of Nursing at Catholic University of America, Washington, D.C. Sr. Rosemary served as President of Sigma Theta Tau from 1975-1981, and is currently Senior Editor, *Image: The Journal of Nursing Scholarship*.

Lucie Young Kelly is President-elect of Sigma Theta Tau. She will be installed as President during the 27th Biennial Convention. Dr. Kelly is Professor of Public Health and Nursing, Columbia University School of Public Health and School of Nursing, and Editor, *Nursing Outlook*.

Nora M. Corcoran is Vice President, Nursing, Morristown Memorial Hospital, Morristown, New Jersey. She has lectured on the impact of Prospective Reimbursement on Nursing.

Lucille Joel is Professor and Director of Clinical Affairs, Rutgers College of Nursing and Director — Teaching Nursing Home Project. Dr. Joel also serves as President of the New Jersey State Nurses' Association and is a member of the ANA Executive Committee of the Psychiatric Nursing Practice Division.

Jacqueline Fawcett, Ph.D., F.A.A.N., and Barbara Lowery, Ed.D., F.A.A.N., will identify clear ways for teaching, research and practice to be combined into one job during the Knowledge Builders session. Alternative paths for academicians will also be discussed.

Jacqueline Fawcett is an Associate Professor and Section Chair, Science and Role Development at the University of Pennsylvania School of Nursing, Philadelphia, PA. Dr. Fawcett is also Chair of the Sigma Theta Tau Research Committee.

Barbara Lowery is currently Associate Professor, School of Nursing, University of Pennsylvania. Dr. Lowery recently won a Distinguished Teacher Award at the University.

A futuristic view of nursing is the subject of a concurrent session, *Toward a New Horizon*. The moderator, Susan Boehm Steckel, Ph.D., F.A.A.N., is Associate Professor, School of Nursing, and Associate Dean of Administration, University of Michigan, Ann Arbor. Dr. Steckel is First Vice President of Sigma Theta Tau and Chair of the National Program Committee. The panel will highlight the 1983 Recipients of Sigma Theta Tau's Founders' Awards.

"Image Makers: Health Care Delivery," will feature a panel of Irene Burnside, M.S., R.N., and Helen M. Ference, Ph.D., R.N., moderated by Carol Lindeman, Ph.D., F.A.A.N. Defining and meeting needs of under-

served groups in the delivery of health care will be the topic discussed.

Dr. Lindeman is Dean of School of Nursing, University of Oregon, Health Science Center, Portland. She is current President of Sigma Theta Tau and former Chair of National Research Committee.

Irene Burnside is Associate Professor of Nursing, San Jose State University, San Jose. She is also Regional Coordinator for Region 1 of Sigma Theta Tau.

Dr. Helen M. Ference is currently a nursing consultant and Sigma Theta Tau's Third Vice President. She has been a site evaluator for petitioning honor societies, Chair of the National Bylaws Committee and a member of the Eligibility Committee.

To add to this exciting Biennial Convention, the historic city of Boston has its own contributions. The best tickets have been reserved for "Sheer Madness," Boston's longest running play for the Tuesday and Friday performances. Perhaps an evening with Seiji Ozawa and the Boston Symphony is more in line for you. Plan to indulge in this historic city with a dinner reception and exclusive showing at the John F. Kennedy Library or a tour of the National Nursing Archives. And, during the beautiful New England foliage season, a 3 day/2 night Post-Convention Tour has been planned. It promises to be a rewarding and memorable 27th Biennial Convention.

Ballot for 1983 Election

The National Nominating Committee is very pleased to announce the ballot for the 1983 Election. There are 46 nominees from 33 different chapters including representatives from 24 states.

Voting for the candidates is scheduled for 6:30 p.m. on Thursday, October 13 immediately following the House of Delegates opening session during the Biennial Convention. Voting is by members of the House of Delegates. The delegates include two representatives from each of the 161 chapters, the National Officers, Chairpersons of standing Committees and the Senior Editor of *Image: The Journal of Nursing Scholarship*.

Staff Appointment

Belinda E. Puetz, Ph.D., R.N. (Omega) has assumed the staff position of Director of Education and Research for Sigma Theta Tau, National Headquarters. Her responsibilities will include expanded program development efforts and coordination of the research activities sponsored by Sigma Theta Tau.

Puetz states, "We would like to expand on the Writer's Seminars with possible follow-up workshops on writing mechanics. Setting up consultations with nurses who have already published is another possibility."

She is coordinating the final details of a current project, *The Directory of Nurse Researchers* will be published in July. There will be approximately one thousand names listed in the directory, according to Puetz. She will also direct the establishment of a lending library of videotaped nurse research presentations. "I want to make this library available to all chapters," Puetz says.

Puetz is a former administrator of Education and Practice programs for the Indiana State Nurses' Association in Indianapolis. She also holds a joint appointment as Assistant Professor, Indiana University Sch. of Nsg.

Honor Society sponsored an all day program April 27, on "Demystifying Nursing Research," or as they put it, "Doing Clinical Research and Liking It."

Beta Zeta Chapter, U. of Massachusetts presented its Eighth Annual Participative Research Day on April 23. Donna Diers, M.S.N., R.N., Dean and Professor, Yale Sch. of Nsg. gave the keynote address on "Nursing Research in the Clinical Setting: Realities and Constraints."

Epsilon Theta Chapter, U. of Texas at Austin presented a Centennial Symposium on "Nursing is Important for Excellence" in April, as a celebration of the first one hundred years of UTA. Dr. Rozella Scholtfeldt gave the keynote address, "A Century of Progress in Nursing."

Alpha Kappa Chapter, UCHSC Sch. of Nsg., and The U. of Colorado Sch. of Nsg., Veteran's Administration Medical Center, and the Children's Hospital of Denver presented the Scholars in Action Research Conference in April. Anna M. Shannon, D.N.S., R.N., Dean, Sch. of Nsg., Montana State U. and Geraldene Felton, Ed.D., F.A.A.N. Professor and Dean, College of Nsg., U. of Iowa were the keynote speakers.

A Letter from a Founder

My copy of the brochure and information regarding the Spanish-American Research Congress in Madrid arrived today. It greatly impressed me. I'm filled with pride and humility to realize that Sigma Theta Tau after only sixty years now has an International aspect far beyond the founders' dream.

Several years ago Sister Rosemary Donley predicted to me that someday Sigma Theta Tau would go International, so the planned Congress seems to bear out her foresight.

Congratulations to you and all the officers who I know have worked diligently to bring the Congress to fruition.

Most Sincerely,

Elizabeth M. Miller

Call for Abstracts

Alpha Delta Chapter, U. of Texas at Galveston, will present selected papers at the Fourth Annual Research Day Workshop in Galveston, TX on November 5, 1983. The topic is "Imperative for Excellence: Research in Nursing Administration." Abstracts should be no longer than 500 words, double spaced, and should be submitted by August 15. Mail to: Rebecca Simson, Ph.D., R.N., U. of Texas Medical Branch, Sch. of Nsg., Galveston, TX 77550.

Alpha Chapter, Indiana U. Hospitals, Indiana U. Sch. of Nsg., and Indiana U. Sch. of Nsg. Alumni will sponsor the Tenth Annual Patient Care Research Colloquium

on November 22. Abstracts dealing with any area of nursing practice should be submitted by August 22 to Joan Austin, D.N.S., R.N., Indiana U. Sch. of Nsg., 610 Barnhill Drive, Indianapolis, IN 46223.

Iota Chapter, Vanderbilt U., announces a Fall Symposium on October 14, 1983. Abstracts on completed or ongoing nursing research will be presented. Submissions should be sent to: Barbara Grimes, Vanderbilt U. Sch. of Nsg., Godchaux Hall, Nashville, TN 37240.

Gamma Tau Chapter, UCLA, will hold their Third Annual Research Conference on February 24, 1984, and requests abstracts

for presentation related to "Advanced Clinical Nursing Research: Methodologies and Applications." Abstracts should be submitted by September 30 to Diane Martin, M.N., R.N., Pediatrics, City of Hope National Medical Center, 1500 Duarte Rd., Duarte, CA 91010.

Dimensions of Critical Care Nursing has added an Applied Research Section where researchers are encouraged to share their research and make clinical suggestions for its application. — SIGMA THETA TAU — POSITION PAPER — TEN-YEAR PLAN —

FOUNDED IN 1922 to enhance and support nursing scholarship, Sigma Theta Tau is the honor society of nursing. Today, in 1983, the society boasts more than 65,000 members located throughout the world and 161 chapters in universities and colleges in the United States and Puerto Rico.

THE INTELLECTUAL CAPABILITY of its members, their commitment to excellence and their leadership roles in educational and practice settings place the members of Sigma Theta Tau in key positions to influence and direct health care service and education in the next century.

IN 1981, THE SOCIETY announced the launching of a significant undertaking aimed at improving the health of the public: the implementation of a ten-year plan to increase the scientific base of nursing practice and sensitize the public to the need for the nursing research required to achieve it

SIGMA THETA TAU'S ten-year plan, entitled Focus on Scholarship, has three distinct components that must be developed sequentially as well as concurrently. These are resource development, knowledge expansion, and knowledge utilization.

RESOURCE DEVELOPMENT implies a substantial increase in public and private support for nursing research. It demands the dissemination of findings, translated in not meaningful words and actions that demonstrate to the profession itself and to the public the benefits of that research.

EXPANSION OF KNOWLEDGE recognizes that while a knowledge base does already exist, answers to many significant questions have yet to be found. Nursing's knowledge base will be expanded through a global network of well-prepared nurse researchers.

FINALLY, THE UTILIZATION OF KNOWLEDGE requires that research findings will be diffused through all facets of nursing so that nursing's ever growing knowledge base will underlie nursing practice in all settings. Professional nurses then will be seen as designers of the health care delivery system.

IN ANNOUNCING THIS ten-year plan — a blueprint for excellence — the members of Sigma Theta Tau commit themselves to strengthening the education of nurses, to creating a better world for nursing research and practice, to international dialogue among nurses, and to improving the care and health of all peoples throughout the world.
