Improving Asthma Compliance in 3rd & 8th Grade Students

Mary Eve Rice, DNP, MSN, CPNP-C

Purpose
- The purpose of this intervention is to improve the asthma compliance and control of children and parents.

Procedures/Methods
- Parents of caregivers
- Grade 3 and 4 school asthma education
- By implementing an asthma education program
- Asthma education at the beginning of the first teaching phase
- Asthma programming at the end of the first teaching phase
- Asthma compliance at the end of the last teaching phase

Evaluation
- Final test session given at the end of the last teaching phase
- The test results will be evaluated to measure the effectiveness of the program.

Participants
- Participants showed positive improvement in their test scores.
- Participants showed no improvement in their test scores.

Null Hypothesis
- The hypothesis at a 95% confidence level, we must reject the null hypothesis because the P-value is >0.05.

Participants
- Parents of caregivers
- Grade 3 and 4 school asthma education

Score
- Pre-test score
- Post-test score
- M = 8/10
- L = 7/10
- P = 6/10
- D = 5/10
- W = 4/10
- V = 3/10
- N = 2/10

Session
- Session 1: M = 8/10
- Session 2: L = 7/10
- Session 3: P = 6/10
- Session 4: D = 5/10
- Session 5: W = 4/10
- Session 6: V = 3/10
- Session 7: N = 2/10
- Session 8: Pre-test score
- Session 9: Post-test score
