

Creating a Legacy through Nursing Leadership, Innovation, and Global Connectivity

Shannon K. Lizer, PhD, APN, FNP-BC

Asako T. Katsumata, PhD, RN

Gordana Dermody, MSN, CNL

Elizabeth M. Carson, EdD, MSN, CNE

Saint Anthony College of Nursing, Rockford, IL

Learning Objectives

- Identify and describe importance of fostering global collaboration and partnership
- Identify key components of the Global Nursing Initiative (GNI) at Saint Anthony College of Nursing, Order of Saint Francis (OSF) Healthcare
- Identify two nursing outcomes related to leadership, clinical practice or nursing education from the Global Nursing Initiative

On a Global Level...

- Internet & travel facilitate ***interconnectedness***
- Nurses & nursing students are ***increasingly*** from diverse ethnic backgrounds
- Global diseases and natural disasters ***cross geographic*** boundaries

(McElmurry, Kim & Al Gasseer, 2000)

**Nursing practice, nursing
education & nursing scholarship
are important to all!**

Japan and Saint Anthony College of Nursing and OSF Initiative

Purpose of Global Nursing Initiative

- To establish an international relationship between Saint Anthony College of Nursing, Japanese higher education, and Japanese healthcare institutions
- To introduce the mission and values of Sisters of The Third Order of Saint Francis (OSF) and Ministries of OSF Healthcare
- To make contributions to the advancement of nursing leadership, clinical practice, and nursing education in Japan
- To facilitate understanding of advanced practice nursing among Japanese health care professionals
- To provide a learning experience for students

SACN Visits to Japan: 2012

- Delivery of **12** presentations (Kumamoto, Fukuoka, Kyoto, and Toyama)
- Foster interdisciplinary collaboration at Japan Red Cross Kumamoto Hospital, Kumamoto, Japan and Nanto City Hospital, Toyama, Japan
- Consultation with nurse leaders, physicians, nursing administrators, nursing staff throughout all levels
- Interactions with nursing faculty, graduate students, undergraduate students

SACN Visits to Japan: 2013

- Increased to **62** presentations in additional venues: Kumamoto, Fukuoka (2 locations), Kyoto, Toyama, & Tsukuba
- Student presentations at many venues
- Foster interdisciplinary collaboration at Japan Red Cross Kumamoto Hospital, Kumamoto, Nanto City Hospital, Toyama, Japan, Tsukuba University Medical Center
- Consultation with nurse leaders, physicians, nursing administrators, nursing staff throughout all levels
- Interactions with nursing faculty, graduate students, undergraduate students

Progression of Relationship...

Visits to Japan

May 2012

Multiple presentations and consultations

May 2013

Multiple presentations and consultations
Student Involvement

October 2013

Educational Forum at Kyoto University

Visits to USA

July 2013

Shadowing Experiences
1st International Forum

February & March 2014

Focused Shadowing Experiences
Academic Leadership Visit

July 2014

2nd International Forum & CNL Seminar

Progression of Relationship...

Visits to Japan

May 2014

Multiple presentations and consultations
Added advanced care planning &
evidence based practice to content

June 2015

Multiple presentations and consultations
Student Involvement
CNL intense five day review course

Visits to USA

July 2014

Shadowing Experiences
CNL Seminar
3rd International Forum

March 2015

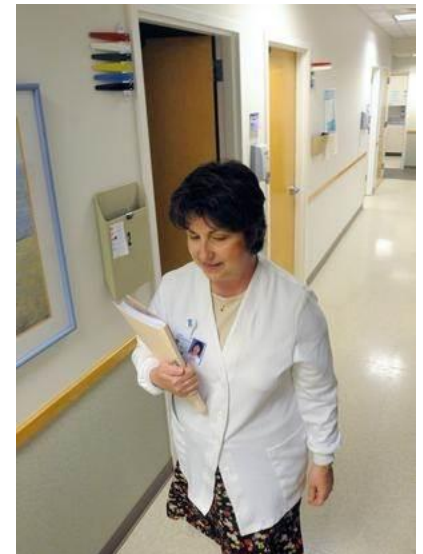

4th International Forum
International STTI Induction of six
Japanese nursing leaders and one
transfer
Immersion experience of Kyoto nurse
faculty & leaders

Fostered Growth in Nursing Practice

- Nursing Practice Development
 - Shared Governance
 - Succession Planning
 - Specialization in practice
- Advanced Practice Roles
- Magnet Accreditation
- Change management
- Effective communication
- Advanced care planning

Introduction to Advanced Practice Nursing

- **Clinical Nurse Specialist**
practice could be a springboard
- Primary Care is a need – **Nurse Practitioners**
- Rural Urban variations

Clinical Nurse Leader – an emerging specialty

- Identified with AACN White Paper on CNL Role (2004)
- Generalist – focused on quality, efficiency, safety, & coordination of care
- Focus on **microsystems**

*In December 2013
Saint Anthony College of Nursing was given
Permission by the
Commission on Nurse Certification
to offer Japanese nurse leaders & faculty
a review course
for Faculty CNL certification*

Outcomes from the Global Nursing Initiative

- Consultations led to interdisciplinary teaching rounds at Kumamoto Red Cross Hospital
- Advancement of nursing role in emergency services
 - Flight Nurse & Flight Physician dialogue
 - Triage Nurse role in Emergency Services

Student Educational Enrichment

- International presentations at multiple venues
- Home-stays for cultural immersion
- Clinical Shadowing for role assimilation

Fostering Japanese Nursing Education

- Enhancing the “3 – P” courses
 - Advanced Pathophysiology
 - Advanced Pharmacology
 - Advanced Physical Assessment
- Developing interdisciplinary communication & collaboration
- Integration of Observed Structured Clinical Evaluations (OSCE)

Development of Clinical Nurse Leader Role in Japan

- Grant funding for education & implementation of the CNL role in Japanese Red Cross Health system
- Multiple sessions in Japan & Saint Anthony College of Nursing to provide CNL instruction
- Shadowing experiences at Saint Anthony Medical Center and St. Mary's Hospital, Michigan immersion
- Preparation for CNL certification exam in 2016

Formal Partnerships Established

**Japanese Red Cross
Kyushu
International
College of Nursing**

**University of
Tsukuba
College of Nursing**

Advisory Role in Rural Health Grant

- Consultant on rural primary health care project with Toyama University, Department of Family & Community Medicine, in Toyama, Japan
- 2013 - Present

Activities from Summer 2013

Student Interactions in Fukuota

Dinner Celebration!

Ongoing Partnership Development...

- Create leadership training opportunities in both in Japan and at Saint Anthony College of Nursing
- Facilitate of educational and academic collaboration
- Create opportunities to interact with clinicians, nurse leaders, faculty, and students
- Share a new concept of parish nursing, spiritual care, and community of caregivers
- Facilitate the concept of hospice & palliative care
- Continue to share concepts of Magnet & CNL
- Continue to share advanced practice roles with medical residents in rural primary care

What's Next...

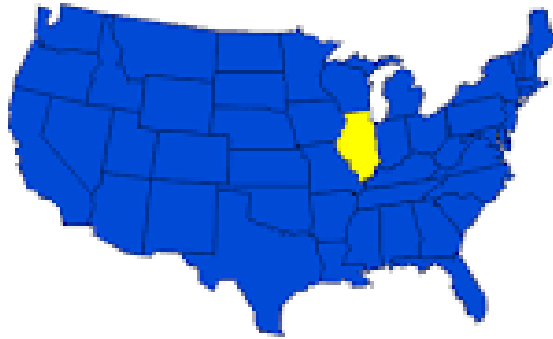

- 5th International Forum, March 2016
- May 2016 visit to Japan
- Summer CNL immersion & review at Saint Anthony College of Nursing
- Medical resident immersion

Summary

- There is ***great potential*** to influence nursing leadership and nursing practice through academic and clinical collaboration; and
- Even a ***small college*** like SACN has a great potential to collaborate with nurses globally and contribute to the advancement of nursing leadership & practice.
