

Welcome

Multiple Patient Simulation: The Development of a Template

Sabrina Beroz, DNP, RN, CHSE
Vanessa Kramasz, MSN, RN
Patricia Morgan, MSN, RN
Nancy Sullivan, DNP, RN

INACSL
CONFERENCE,
2016

June 15-18, 2016

Gaylord Texan
Resort
Grapevine, TX

INACSL CONFERENCE, 2016

Continuing Nursing Education

INACSL is an accredited ANCC provider.

@INACSL | #INACSL16

- Conflict of Interest

- Sabrina Beroz reports no conflict of interest
- Vanessa Kramasz reports no conflict of interest
- Patricia Morgan reports no conflict of interest
- Nancy Sullivan reports no conflict of interest
- Julia Greenawalt (INACSL Conference Administrator & Nurse Planner) reports no conflict of interest
- Leann Horsley (INACSL Lead Nurse Planner) reports no conflict of interest

- Successful Completion

- Attend 90% of session
- Complete online evaluation

National League for Nursing 2015 Leadership Institute for Simulation Educators

Simulation Leader Group Project

National League
for **Nursing**

Objectives

Upon completion of this presentation, participants will be able to:

1. Discuss the rationale for the development of multi-patient simulations as a teaching-learning strategy.
2. List the components of the multi-patient simulation template.
3. Discuss the application of the template in curriculum integration.

Rationale

- Readiness for practice
- Nursing shortage
- Retirement
- Nationwide survey
- Clinical education practices
- Definition of simulation
- Nurse to Patient ratios
- Limited research

Purpose

- To construct an adaptable and flexible template for the development of MPS scenarios.
- To support senior level nursing students transition into practice.
- To provide a review of the literature for MPS.
- To develop an operational guide for use of the template.

TEMPLATE

- Define Target Audience and Roles
- Develop Core Objectives
- Focus of Psychomotor and Cognitive Skills
- Length of Simulation and Debriefing
- Venue and Set-Up
- Recommended Number of Patients
- Scenario Progression
- Develop Pre-work related to Core Objectives

SAMPLE

Pilot Testing

- ADN and BSN level
- Individualized the template with different scenarios
 - Varying roles
 - Nurse, charge nurse, night nurse, resource nurse, student nurse
 - MD, pharmacist, family members, CNA, observers
 - **Streamlined the documentation**
 - **Easy to read and operationalize**
 - All relevant information in one document
