Introduction

In 2012 Iota Upsilon-at-Large was struggling as a chapter. The chapter had lost its tax exempt status, was not compliant with STTI bylaws, had low member engagement and lack of diversity on the board.

Strategies

The board followed STTI best practices and accessed all resources available including headquarters staff, Regional Coordinator, chapter officers.

Examined every area of chapter operations including banking, chapter activities, policies and procedures, board member accountability, awards process, travel and reimbursement policies, and nominations/elections
