

**Learning Activity:**

<b>LEARNING OBJECTIVES</b>	<b>EXPANDED CONTENT OUTLINE</b>
The learner will be able to discuss effective components of cyberbullying intervention programs for individuals and parents.	A systematic review of cyberbullying intervention programs used around the world will be presented specifically identifying the thematic components identified that are most commonly used. Components that could be used for the individual and their parents will be presented.
The learner will be able to discuss evidence-based programs used globally for cyberbullying prevention and intervention.	A global perspective on cyberbullying prevention and intervention programs will be given as programs were found in 11 countries spanning 4 continents.
