

Learning Activity:

LEARNING OBJECTIVES	EXPANDED CONTENT OUTLINE
The learner will be able to describe how Q methodology can be used to study subjectivity.	The poster will include a brief history of Q methodology as well as previous research using Q methodology to study subjectivity.
The learner will be able to describe how Q methodology can be used to evaluate outcomes from engaging in undergraduate research.	The poster will include a detailed description of the results of our study and what the results mean in the context of program outcomes.
