

**Learning Activity:**

<b>LEARNING OBJECTIVES</b>	<b>EXPANDED CONTENT OUTLINE</b>
1. The learner will be able to state at least one method of application for incorporating a structured clinical experience to the needs of the homeless population.	A variety of research supported experience applications, such as clinical, literature and/or lecture, will be presented.
2. The learner will be able to translate knowledge of the homeless experience and unique needs of this population to develop potential educational nursing interventions.	Provide overviews of both qualitative and quantitative research
3. The learner will be able to identify at least one vulnerable population in which relevant clinical experiences could occur.	Describe vulnerable populations and key components to identify
