

**Learning Activity:**

<b>LEARNING OBJECTIVES</b>	<b>EXPANDED CONTENT OUTLINE</b>
The learner will be able to describe the patient safety composites and safety outcomes measured using the Agency for Healthcare Research and Quality (AHRQ) Hospital Survey on Patient Safety Culture.	Overview of the Agency for Healthcare Research and Quality (AHRQ) Hospital Survey on Patient Safety Culture will be provided including: 1) validity and reliability; 2) definitions of the patient safety composites; and 3) descriptions of the safety outcomes.
The learner will be able to describe common perceptions of registered nurses related to patient safety culture.	Data collected using the AHRQ Hospital Survey on Patient Safety Culture will be presented including: 1) description of the study sample; 2) nurses' responses related to seven unit-level safety culture composites; 3) nurses' responses related to three organization-level safety culture composites; and 4) nurses' responses related to four safety outcomes.
The learner will be able to analyze the relationship between patient safety culture and safety outcomes.	The relationships between patient safety culture and safety outcomes and the implications of the findings will be presented.
