

Learning Activity:

LEARNING OBJECTIVES	EXPANDED CONTENT OUTLINE
Discuss 3 requirements in the process of evaluation and approval of new AHA International Training Centers.	Requirements to become an ITC include documents that demonstrate the organization is a legal entity in the country where it intends to offer training, the organization must have an administrative structure in place to manage customer service and fulfill the administrative requirements of the program, it must have economic capacity to purchase and maintain equipment, the organization must maintain a general liability insurance policy, the ITC must have its own AHA Instructors, the ITC must have its own facilities and rooms to offer each course, the ITC must have the items on the materials list provided by the AHA, a center is expected to train a minimum of 300 people per year.
Describe 3 elements that enhance an international collaboration in building a successful AHA International Training Center.	Elements to enhance international collaboration include a shared vision, defining how the work gets done, funding and planning of future efforts.
