

Transforming Care by Engaging Nurses in Innovation

Bonnie Clipper, DNP, RN, MA, MBA, CENP, FACHE
Robert Wood Johnson Foundation Executive Nurse Fellow
ASU/AONE Executive Fellow in Health Care Innovation Leadership Alum

Bonnie Clipper, VP, Practice & Innovation, American Nurses Association

- Objectives**
- Identify characteristics and barriers to innovation.
 - Demonstrate techniques to increase creativity within their organizations.
 - Describe how to build cross-functional, interdisciplinary innovation teams.

Disclosure • Nothing to disclose.

Defining Innovation

*A **novel** set of behaviors, routines and ways of working that are directed at **improving** health **outcomes**, administrative **efficiency**, **cost-effectiveness**, or users' **experience** and that are implemented by **planned** and **coordinated** action.*

(Greenhalgh, et al., 2004, p. 582)

*Putting **new** ideas into practice or using **existing** ideas in **new** ways.*

(Melnyk & Davidson, 2009)

Improvement vs. Innovation

Mental Models

IMPROVEMENT	INNOVATION
Elimination, remove existing system faults.	Creation, remake the system.
Known	Unknown

Faults (Laderman, Institute for Healthcare Improvement, 2017)

(Pixibay, 2016)

Three “types” of Innovation

- Buying and using health care (models of care/care delivery).
- Health Technology: creating new products/treatments to improve care.
- Business models: focusing on access, supply chain, infrastructure and integration.

(Herzlinger, 2006)

Leadership

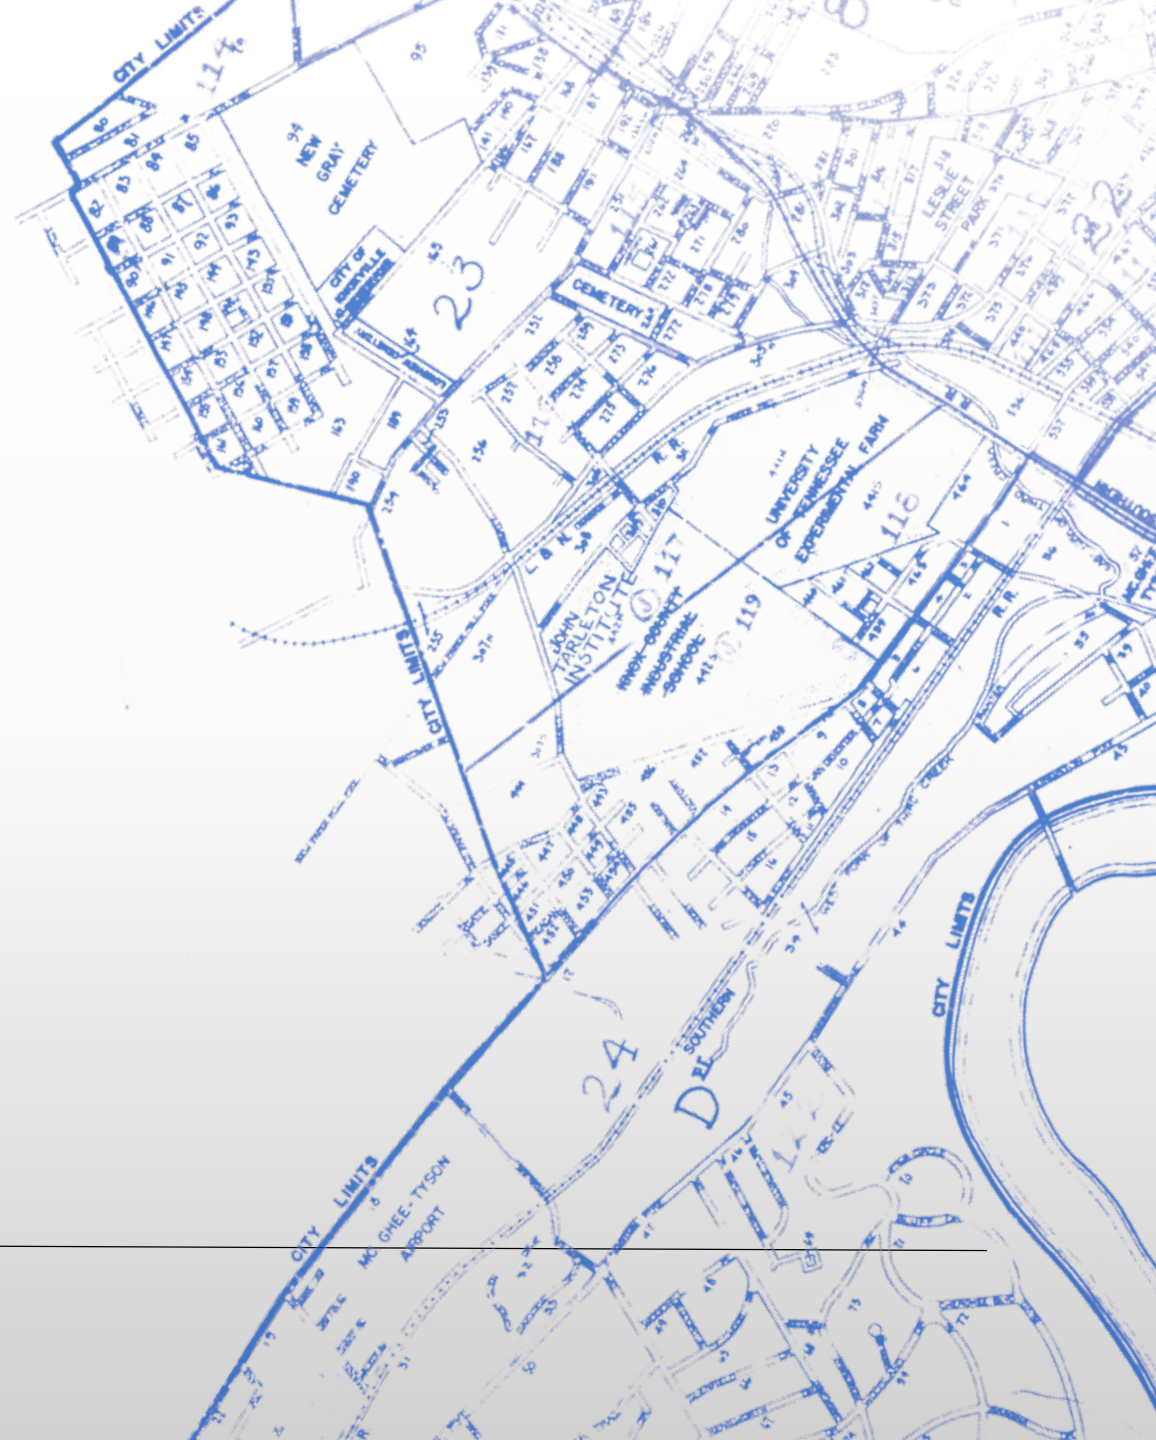

- Provide opportunities for innovation, from incremental or disruptive type innovation.
 - Identify mentors that can cultivate innovators among leaders and staff.
 - Talk about it – ask about it.
 - Publically reward innovative ideas.
 - Model innovation.
-

Integrate the Expectation

- Not an initiative, has to become the culture
- Doesn't compete with current process improvement
- Build a framework

Barriers

- Players
- Policy
- Resources
- Accountability

Empowerment Overcomes Barriers

- Encourage nurses to do what they do best...solve problems
- Provide support and resources
- Encourage divergent thinking
- Employ novel solutions
- Engage nurses in the process
- Celebrate innovation in real time
- Learn from failure

Cross Functional Teams

- Populate teams with energetic participants
- Incorporate variety of disciplines
- Incorporate a variety of experience & skill levels

Start tomorrow...

- Start small, identify one project/problem
- Use a dedicated committee/council (or carve out time in existing)
- Cross-functional/interdisciplinary teams
- Drive out fear
- Create an innovative culture with fun
- Embrace failure
- Think differently
- Reward innovation
