Sponsorship provided by Dr. Provencio-Vasquez, Dean, The University of Texas at El Paso School of Nursing
Learning objectives

- Identify three transformational activities useful in transitioning from semi-flipped to a fully-flipped nursing classroom model

- Describe two nontraditional methods of evaluating the fully-flipped nursing classroom model
What are your challenges in the classroom?

What is a fully-flipped class?
Orientation

- Rationale
- Anticipate
- Expectations
- First week of class
Pre-class Activities

- On-line activities
- Reading assignments
- Voice over lecture slides
- Video-animation of content
In-Class Activities

- Interactive case analysis
- Unfolding case studies
Evaluation

- Quizzes
- Exams
- Standardized exams
- Mastery level quizzes
- Program time on task
- One-minute pre-class assessment
- Virtual nursing clinical experiences
Outcomes

- Student engagement
- Learning outcomes
- Faculty satisfaction
Questions?

Faculty acknowledgement: Claudia Perez, MSN, RN and Maria Hinojosa-Smith, MSN, RN
