Title:
CHAPTER LEADER SESSION: Tour the New Online Induction System

Presenters:
Sabrina Collins-Christie, BA, BS, STTI Staff, Membership Manager

Type:
Oral

Keywords:
inducting members, induction system and online induction system

Summary:
Chapters use the Online Induction System to issue membership invitations to eligible students and nurse leaders. Take a tour of the new system! *This session is not eligible for continuing nursing education contact hours.

Abstract Text:
Tour the NEW Online Induction System
Chapters use the Online Induction System to issue membership invitations to eligible students and nurse leaders. Take a tour of the new system! *This session is not eligible for continuing nursing education contact hours.

- Understand how to upload candidates and issue invitations through the new Online Induction System

- Learn how members accept their invitation

What is different in the new system?

Some of the highlights of the new system include:

- Allowing chapters to set an in-person ceremony location, virtual ceremony location, or to have no ceremony location. This will make it easier than ever to induct students and nurse leaders in the way they prefer.
- The opportunity to follow up with individuals who are already a member (and therefore cannot be inducted again), and to re-invite candidates who did not accept a previous invitation.
- Using an email service provider to deliver invitations, meaning email deliverability information will be available to your chapter as a report.
- Forced segmenting of candidate email lists, instead of a default to “All Candidates.” This will ensure the correct audience (i.e., not yet accepted) receives your reminders, instead of those who may not need a reminder because they have already accepted and paid for membership.
• Easy verification of ceremony and guest fees. While the international and chapter dues amounts are already provided in the system, the chapter has the ability to set optional amounts to cover the cost of the ceremony through ceremony and guest fees. You will also be able to limit the number of guests who are able to attend.
• This new system also allows candidates to complete their application and submit payment on any device of their choosing (computer, smart phone, tablet, etc.). This will allow the candidate to accept their invitation easily, as the content will expand and contract to fit the size of the screen.

The Online Induction System is accessible in the Management System at http://management.nursingsociety.org. Only current chapter leaders have access to the system. (Leaders are entered by the chapter in the Officer and Committee Chair Report. STTI does not grant access or list leaders for the chapter.)

Final Number:
G 20
Slot:
G 20: Monday, 30 October 2017: 1:15 PM-2:30 PM
