

Simulation Education to
Promote Transition into
Clinical Practice

Aspire
TO TRANSFORM
2017

July 18 - 21, 2017

Research Team

- Kelly L. Rossler, Ph.D., RN, CHSE*
- Katherine Hardin, MSN, RN-BC*
- Marygrace L. Leveille, Ph.D, RN, ACNP-BC
- Karen Wright, DNP, RN

• Presenters do not report a Conflict of Interest*

July 18 - 21, 2017

Aspire
TO TRANSFORM
2017

Learning Outcome

- This session will enable the learner to:
**Enhance the successful transition of the
graduate nurse intern into the practice
setting.**

July 18 - 21, 2017

Aspire
TO TRANSFORM
2017

Anticipation Guide : To Agree or Disagree

- Human Patient Simulation is the answer to a knowledge or skill deficit
- Qualitative methodology is the optimal way to expand research exploring transition into practice
- Integrating Human Patient Simulation into a nurse residency is valuable
- Collaborative structure partnerships are the future of Human Patient Simulation

  July 18 - 21, 2017

Overview of Research

  July 18 - 21, 2017

Strength in the Literature

- National Council of State Boards of Nursing: Transition to Practice® (TTP) model
- Formalized Nursing Residency/Internship Programs
- Experiential Learning Teaching Methodologies
- Baylor Scott & White Health Professional Practice Model

  July 18 - 21, 2017

Research Questions

1. What did it mean for new graduate nurses to experience simulation based education during the registered nurse internship program?
2. What are new graduate nurses' perceptions of human patient simulation as a teaching modality to promote transition into the clinical practice setting?

ANPD
American Nurses Professional Development

Aspire
July 18 - 21, 2017

Anticipation Guide: To Agree or Disagree

Human Patient Simulation is the Answer to a Knowledge or Skill Deficit

ANPD
American Nurses Professional Development

Aspire
July 18 - 21, 2017

Methodology and Rigor

- Qualitative Research Design: Hermeneutic Phenomenology
- Setting: Simulation Education Room and Simulation Laboratory
- Human Patient Simulation Sessions
 - Tiered Education Format
 - Newly Licensed Registered Nurse hired into the Graduate Nurse Internship Program
 - Medical Surgical Essentials
 - Cardiovascular Essentials (Telemetry)
 - Critical Care Essentials

  July 18 - 21, 2017

Simulation Laboratory

  July 18 - 21, 2017

Education & Control Rooms

  July 18 - 21, 2017

Facilitation and Debriefing

  July 18 - 21, 2017

Methodology and Rigor : The Interviews

- Past Participation in Pre-Licensure Simulation Education
- Attendance in the Simulation Education Sessions
- Exemplars: Incorporation of the Simulation Education Sessions into Practice
- The Meaning of Role Socialization

  July 18 - 21, 2017

Anticipation Guide: To Agree or Disagree

Qualitative Methodology is the Optimal Way to Expand Research Exploring Transition into Practice

  July 18 - 21, 2017

Outcome Themes

- Gaining Comfort with relationships
 - Real-to-Life Practice: "Collective Competence"
 - Role Uncertainty
- Talking it Out

  July 18 - 21, 2017

Real-to-Life Practice

  July 18 - 21, 2017

Role Uncertainty: Bridge with Simulation

  July 18 - 21, 2017

Anticipation Guide: To Agree or Disagree

- Integrating Human Patient Simulation into a nurse residency is valuable.

July 18 - 21, 2017

Lessons Learned

- Financial Considerations
- Time and Personnel
- INACSL Standards of Best Practice: Simulation*
- Implications for Future Research
 - ANPD, Society for Simulation, and International Nursing Association for Clinical Simulation in Learning Survey

July 18 - 21, 2017

Equipment and Setting

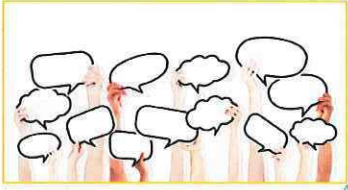

July 18 - 21, 2017

Anticipation Guide: To Agree or Disagree

- Collaborative partnerships are the future of Human Patient Simulation.

  July 18 - 21, 2017

We Welcome Questions

  July 18 - 21, 2017

Anticipation Guide – Make Your Plan
