The purpose of the Maternal Nurses to identify and cracker jacks to develop the leadership skills of maternal providers to enable them to improve the working environment in the delivery room. Encouraged barriers to overcome and repositioning patients to encourage staff. Overcome challenges to improve staff satisfaction and repositioning of patients in the second stage of labor. Used learned lessons to facilitate the use of the peanut ball in the first and second stages of labor.

**Conclusions**

- Improved outcomes:
  - Ongoing data collection
  - Implementation of project
  - Identified ‘go to’ strategies
- Identified ‘go to’ strategies:
  - Best practice
  - Informed decision making
- Created a ready-to-use reference guide

**Methods**

- Create Consent Form
- Submit IRB
- Best Practice
- Ongoing data collection
- Implementation of project
- Identified ‘go to’ strategies

**Results**

<table>
<thead>
<tr>
<th>Time with Peanut Ball</th>
<th>Time without Peanut Ball</th>
<th>Mean (SD)</th>
<th>Lower 95% CI</th>
<th>Upper 95% CI</th>
